B. GREETINGS FROM THE PRINCIPAL'S DESK

Concord Primary School (CPS) is blessed with a team of very supportive parents who contribute their time and energy to facilitate our students' Interdisciplinary Project Work (IPW). They motivate our students' learning through their hands-on learning experience at the Newton Lab. These parents are truly remarkable. Without their support, our students will not be able to experience joy of learning through such a unique programme. The true beneficiaries of their efforts are our students. On behalf of the Concord family, we thank these parents for their time and efforts.

I would also like to thank parents who actively participated in our inaugural Parents' Symposium on 24.03.2018. Your attendance and support of the event encouraged us tremendously. You gave us the opportunity to provide a clearer understanding of the knowledge and skills we nurture in Concordians; and the different strategies we use in school to engage our students learning. The heartwarming words of appreciation from parent participants motivate us to do an even better job in future, to in our efforts to engage parents in igniting the joy of life-long learning in Concordians.

CPS is commemorating International Friendship Day (IFD) on 06.04.18, Friday. This year, the theme for IFD is **Celebrating the ASEAN Community**. As Singapore is an active member of ASEAN, IFD is a day dedicated to help our students to learn about the different backgrounds and experiences from people in our neighbouring countries and to continue to maintain good relations with them. During the week (02 – 05.04.18), P1 – P6 students participated in IFD activities during recess. Do encourage your child to share their learning experiences with you.

In conjunction with the IFD celebration, our students had the privilege of hosting friends from Santa Laurensia Elementary School, Indonesia and Chengdu Haibin Primary School, China. The hosting enables our students to actively seek out ways to welcome their international peers and cultivate friendships with them. In addition, it enables our students to appreciate and embrace cultural diversity.

G. FATHERS' WORKSHOP: FATHERS' ROLE IN PARENTING (P2 – P5 Parents only)

(Mdm Ee Peck San, HOD ICT & YH MP(Cvrg))

A father's role has evolved over the years. Gone are the days of "I just bring home the bacon" or communication that goes "It's my way or the highway". With dual income families becoming the norm now, fathers are starting to recognize the need for a "shared responsibility" in raising their children. Yet what are the changing roles specifically? What unique strengths do fathers have that they can use to help raise their children? What does research or data reveal about the impact fathers can have? How can fathers be enlightened, equipped and empowered to take ownership of their roles today in parenting?

This workshop is based on findings & research that celebrates the unique strengths of fathers! **Register by 16.04.2018** and discover how you can support your children and create a positive impact in your children's lives.

21.04.2018, Saturday	9.00 am to 11.00 am	Concord Primary School, E1-01

H. PARENTING WORKSHOP: MANAGING TRANSITION, FROM P6 TO SEC 1 (P6 Parents only)

(Mdm Ee Peck San, HOD ICT & YH MP(Cvrg))

Transitions are proud milestones for some and lifetime stigma for others hence it is paramount that parents help to make it a success for every P6 child who would enter the secondary school for another four/five years of their lives by first understanding the traits of a typical teenager in Singapore and what could be the challenges of their next steps.

Parents are their child's first teachers and as the child grows into a teenager, their emotional needs are different and the role of parents being a teacher may have to transform to that of an emotional coach with the right communication skills. **Register by 16.04.2018** and discover how you can support your children in the transition phase.
