Celebrating July Babies Birthday

—

Yeah! They are finally 7 and 8 respectively! A year older, a year wiser!

Happy Birthday to our Primary 1 and Primary 2 students!

Learning Journeys for Primary 2 to River Wonders

- By Mrs Noelle Chong

The school organized learning journey for our Primary 1 and Primary 2 students. The aim is to integrate all subjects into the learning journey to make learning fun and meaningful. These learning journeys provided students with authentic learning experiences that will reinforce their cognitive and conceptual learning which is in line with MOE syllabus.

We would like to thank all the Parent Volunteers for taking time off their busy schedule to join us at River Wonders and Singapore Zoo. We hoped you enjoyed the time with us as much as the students enjoyed their time with you.

Students learnt about animals and where they live. It is important for them to learn to conserve and co-exist with wildlife. Students also have a better understanding of the importance of taking care of the environment as it has a significant impact on the lives and welfare of animals.

Primary 1 Learning Journey to Singapore Zoo

- By Mdm Jenny

Students were over moon. They were all excited, well prepared and was looking forward to this day.

To allow learning to be more focused, we have decided to take the Wild Africa route.

Students were in awe to see all the animals in their enclosures. The animals were active, alert and they are all ready to welcome us.

There were various tasks to be completed at the different enclosures. In group of six, students completed the tasks using the ipad. These questions were brought back to classrooms for further discussions after the learning journey.
